

The productivity platform.

Join thousands of agencies and brands moving faster with Hive's powerful project management and collaboration software.

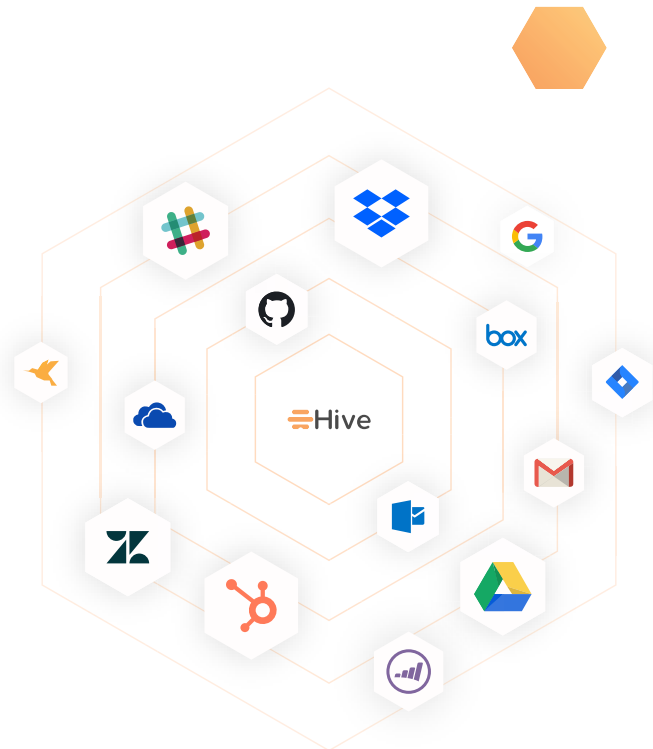

Work Your Way

Give your team the ability to manage their projects in the way they work best and easily switch between views for ultimate flexibility.

With 1,000+ Integrations

Hive integrates with thousands of applications to make it easier than ever to connect all your work in one centralized place.

Trusted By Leading Companies

Advanced Features for Fast Moving Teams

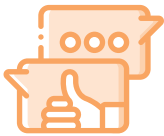

Custom Analytics

Monitor and report on projects in real-time, spotting risks proactively.

Time Management & Resourcing

Plan and schedule your team's time for current and upcoming projects.

Messaging

Easily collaborate by sending messages directly to individuals or groups.

Files

Need to share a document? Upload directly to a task, project, or message.

Forms

Eliminate constant emails and collect all necessary information through forms.

Meeting Notes

Turn your meeting notes directly into actionable tasks.

Hive Mail

With two-way email sync easily create action cards and track communication.

Proofing

Assign approvals, share proofs, and provide feedback.

External Users

Invite clients, contractors, or freelancers outside of your organization to collaborate on a single project within your workspace.

Enterprise Security

Add advanced security to your workspace including Single Sign-On, encryption at rest, and audit logging.
